Listen! Two years ago I bought two lots in New York, paying \$10 each down and \$8 esch per month. The price of the lots was then \$750 each. I can now sell these two lots and make clear \$636, and, besides, they have been as an insurance on my life. And still they are growing in value every day. The new Brooklyn bridge is now completed, and lots are booming in New York and Brooklyn. So young man, or old man, don't be a jack and tie your hands and feet by having your life insured, for this is a slow process; got to wait from 15 to 20 years, and you know this is a long time, and so may get tired and throw up your policy. Buy Real Estate and make your money sure and

quick. Come and see me and I will explain more fully. I can sell you lots in either New York or Norfolk, Va. Others are making money fast and so can you. Don't delay, but come when you can get the Best Lots. Got them at all prices, and they act as an insurance on your life. Yours for Gold Dollars,
